

MetaParamValue

```
graph BT; CheckedIntType --> MetaParamValue; MetaEnum --> MetaParamValue;
```

The diagram illustrates a class hierarchy. At the top is a box labeled 'MetaParamValue'. Below it, two boxes labeled 'CheckedIntType' and 'MetaEnum' are positioned side-by-side. A horizontal line connects the top of these two boxes, and a vertical line with an upward-pointing arrow extends from the center of this horizontal line to the bottom of the 'MetaParamValue' box, indicating that both 'CheckedIntType' and 'MetaEnum' inherit from 'MetaParamValue'.
