

IpAddress

```
graph BT; IpNetmask --> IpAddress; IpWithPort --> IpAddress;
```

The diagram illustrates a class hierarchy. At the top is a box labeled 'IpAddress'. Below it, a horizontal line connects two boxes: 'IpNetmask' on the left and 'IpWithPort' on the right. A vertical line with an upward-pointing arrow connects the midpoint of this horizontal line to the bottom of the 'IpAddress' box, indicating that both 'IpNetmask' and 'IpWithPort' inherit from 'IpAddress'.
